

FourLove

FourLove is a 33' racer/cruiser that will satisfy the needs of the club racer and offshore cruiser alike.

Designed and strongly built in South Africa in 1983 to the design of Angelo Lavranos, (trained in the office of Sparkman and Stephens) Fourlove is a very capable offshore sail boat that also gives a good turn of speed. Fourlove has a proven race history and has already sailed the Southern Ocean route from South Africa to Australia, then on to the Gold Coast. Fourlove could just as easily be used for the next Sydney/Hobart, with a good chance of a handicap win or for your next cruise to the Whitsundays.

She has been meticulously serviced and maintained since new by the original owner and is in top condition.

CONSTRUCTION Professionally built in GRP by John Robertson Yachts, Cape Town, South Africa.

Length Overall; 10.06 m

Length Waterline; 8.22m

Beam; 3.43m
