HOW MUCH POWER DO YOU NEED?

To help you to help yourself, fill out this form as accurately as possible. It may take a little while but it will help you to better understand your own energy requirements and help us to advise you how best to replenish that energy. If there is anything at all you don't understand, please contact me.

Note:

Some things may use more or less power than stated, this is for you to work out.

Your Boat.

Appliance.	Typical Watts.	How Many?	Hours Each day.	Your Watts.	Watts x hours.
